Under Floor Trunking

Flytec underfloor trunking is designed for placing on the constructional concrete slab, to be completely covered when the final floor screed is laid and the service outlet positions fixed.

E2/61 2 Compartment Size 150mm x 25mm

E2/62 2 Compartment Size 150mm x 50mm

- Steel underfloor trunking manufactured in 2 metre lengths. Two or three compartment are most commonly used. Single or other numbers of compartments can also be supplied.
- The trunking lengths are a total welded construction with no need to couple together loose channel sections.
- Each length is joined together by a saddle clamp and plate, which prevent any ingress of screed into the duct.

E3/91 3 Compartment Size 225mm x 25mm

E3/92 3 Compartment Size 225mm x 50mm

2 Compartment Service Outlet Box

Supplied in through or end of run format only

- Part number E2/SB/1TS supplied with one RJ45 plate and a panel mounted dual earth twin switched socket. (Add trunking size to above part number)
- 75mm deep as standard, other depths available.
