FLYTEC

Skirting Trunking

TF62/2C
150mm x 50mm
(2 compartment)
top 100mm, bottom 50mm

TF82/3C
200mm x 50mm
(3 compartment)
top 50mm, centre 100mm,
bottom 50mm

TC62/2C
150mm x 50mm
(2 compartment)
top 100mm, bottom 50mm

TC82/3C
200mm x 50mm
(3 compartment)
top 50mm, centre 100mm,
bottom 50mm

Flytec skirting trunking is supplied in 2 metre lengths, comprising a galvanised sheet steel body with powder coated overlapping lid, white as standard. A cover strap is provided with each length of lid. This reduces the necessity for special on-site cutting requirements, the strap covering any cut edges.

- 20mm knockouts are provided in the partition at 250mm centres. This allows easy positioning of outlet plates, which require screening via the steel back box that fixes to the partition.
- Chamfered or flat top options as standard
- Other powder coated finishes are available even when only a short run of trunking is required
- 2 or 3 compartments are most commonly used. However systems to suit client's individual requirements can be manufactured within the same short lead times.

From 1st November 2018 Flytec will manufacture TC62 and TF62 Skirting Trunking with the 100mm compartment at the top. This is to facilitate the fitment of moulded plugs.

Factory manufactured sets

- Pier sets and off sets can be pre made minimising labour costs. A member of our technical staff could advise and assist for all on-site measurements
- Should you require factory made sets without the need of a site visit by our technical staff, dimensions of wall as shown here will be required.

How to order

- Accessory part numbers are the same for all styles of skirting and dado. It is the trunking part number pre-fixed before the accessory that ensures you get the correct item.
- Example: A twin socket outlet lid for 200mm x 50mm, 3 compartment flat top skirting. Take trunking reference TF82/3C + accessory part number TSO to give TF82/3C TSO
