Multi Compartment Cable Trunking

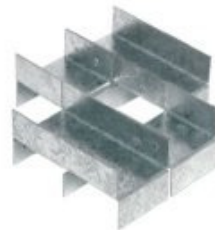

- Constructed to the same high quality as our single compartment range
- Partitions manufactured from galvanised steel spot welded into position
- Partitions can also be supplied for loose on-site fixing
- Trunking with unequal spaced compartments can be supplied - Please state sizes required at time of ordering
- All accessories shown on the single compartment page can be manufactured to suit multi-compartment
- All compartments are equally spaced unless otherwise requested

Accessories

O/S CO
Off set Crossover

Fly-over

How to order

- Please use accessory part number followed by trunking size and the abbreviated amount of compartments
- Example: A flat 90° gusset bend for 75mm x 75mm trunking - Part number FGB + number of compartments
 2C = FGB 33/2C

D/D Tee Full depth Tee

O/S Tee Off set tee

Fly-Overs

- Fly-overs are supplied with all tees and crossovers
- Approximately 50% of cable capacity is lost when fitting a fly-over

Tee and Crossover Junctions

- These accessories will help reduce lost capacity at tee and crossover junctions
